OPENCoLab

THE **OPEN LEARNING & TEACHING COLLABORATIVE** AT PLYMOUTH STATE UNIVERSITY

Founded in January 2019, CoLab is a dynamic hub for teaching & learning praxis and community-driven academic professional development.

Teaching & Learning Development: We work with the entire PSU community to deepen our understanding of what it means to learn, think, and know in the 21st century. This work is both practical and theoretical.

Community Building & Support: We build opportunities for faculty, staff, and students to share their knowledge and position themselves as peer leaders in campus conversations about teaching and learning.

Interdisciplinary Learning & Exploration: Through the IDS major, we pilot innovative teaching strategies and academic structures and bring our perspectives and lessons learned back to the larger PSU community.

Open & Public Research and Advocacy: We encourage our community to engage in conversations about the how and why of open education and how it intersects with ideas of access, public good, and digital literacy.

1:1 Provides one-on-one support for over 34 distinct programs and offices across campus.

80 Unique Participants in the CoLab's two major learning communities, Cluster Pedagogy Learning Community & Design Forward

169 Unique Participants in January Jamboree

221 Unique Participants in University Days
